The Dr Karl Gabrisch Collection of Coins of Tibet and Nepal

Introduction

The collection offered in this sale was formed by the late Dr Karl Gabrisch between the 1970's and his death in 1995. Dr Gabrisch qualified as a veterinarian in Poland, becoming the chief veterinary officer of the Warsaw Zoo, and an expert in the diseases of reptiles. He had been interested in numismatics, and in Tibet, since childhood and after he left Poland and settled in Germany, he was able to follow his interest with greater fervour, and started to collect Tibetan coins. With his academic training, he researched the subject extensively, jointly publishing in 1983, with Dr Hellrigl, a fine bibliography of Tibetan Stamps and Coins. Early on, he decided to include coins of the Malla Dynasty of Nepal in his collection, as these circulated extensively in Tibet, particularly before Tibet began issuing its own coins in about 1763. He travelled frequently to Nepal, Tibet, and elsewhere in search of material for his collection and for his researches. In 1989 he was a joint author, with the writer of this catalogue, and with the late Carlo Valdetaro, of *The Coinage of Nepal*, published by the Royal Numismatic Society, London, and the same year he published *Geld aus Tibet*, in connection with an exhibition on Tibet, held at Winterthur in Switzerland. Many of the coins in Dr Gabrisch's collection were used to illustrate these two books. By the time of his unexpected death in December 1995, he had assembled one of the finest collections of the Malla Dynasty of Nepal, and of the coins and banknotes of the Tibetan region of China, and this collection is offered here in its entirety. Even the contemporary and modern forgeries are included as they complete the picture for specialist collectors. It represents a unique opportunity for collectors to obtain specimens that are rarely offered at public auction.

Estimate: US\$1,000-1,500

These coins of Qian Long Year 57 (1792) with legend purely in the Tibetan language were only issued for a few months, before orders were received from the Emperor in Beijing that the coins struck for Tibet should have legends in both Chinese and Tibetan.

The following six lots were struck early in the reign, when the Central Government imagined that a multidenomination system in Tibet was possible. In fact, the Tibetan were only used to a single denomination, consisting of debased Nepalese coins, weighing 1½-Qian. Early in Qian Long Year 58 (1793), it was realised that the Tibetan would only accept coins of a single denomination, but that the diameter was more important than the weight. From then on, the central Government struck fine coins of the same diameter as the Nepalese coins, but weighing only 1-Qian, instead of 1½-Qian. Since most of the Nepalese were debased to about 65% silver, all coins could circulate at equal value.

The silver coins of Ladakh and Garhwal, called timasha in Garhwal and j'au in Ladakh, circulated widely in Western Tibet between the mid-18th century and the early 20th century. The main reason for the existence of the coinage being payment for the wool that was exported from this area. Many of the coins of Ladakh, particularly those in EF condition, were acquired by Dr Gabrisch in Kalimpong, and published by Karl Gabrisch in *NI Bulletin* June 1982 (pp.165-76) and by N.Rhodes in *Num. Tibetan Military Badges

The following military badges were studied by Wolfgang Bertsch for his pioneering publication 'Tibetan Army Badges' in *The Tibet Journal*, Vol.XXVI No.1, Spring 2001, pp.35-72. The army was divided into regiments, identified by a letter, of up to 1,000 men in each. The regiments were divided into 'ru' of 250 men, and then into ten 'lding' of 25 men each. Each soldier of some of the regiments seems to have had two badges, one cross shaped and one 'angular' shaped. The cross-shaped badges seem to be modelled on a European prototype, such as the Victoria Cross, but these badges were not awarded for valour.

- 324 **Military Badge:** Ordinary cross-shaped brass badges (3): 'Ga' Regiment 1, 'Ru' 1, 'lding' 2, No.27; 'Ga' Regiment 1, 'Ru' 2, 'lding' 7, No.408; ; 'Ga' Regiment 1, 'Ru' 3, 'lding' 10 (Bertsch 1). *All very fine, rare.* (3pcs)

- *327 **Military Badge:** Partially gilt silver badge of the highest artistic quality, with coral fixed in the centre, the design includes the deity Palden Lhamo, the protectress of the Gelugpa Sect, and of Lhasa, mounted on a mule, and a cannon; The legend on a scroll below, can be translated as "Dingpon of the first Artillery Regiment" (Bertsch 9, this piece). *Extremely fine, of beautiful workmanship, the only such badge recorded.*
Estimate: US\$200-300

The Dingpon was only in charge of 25 men, and it is remarkable that an officer of such lowly rank should have had such a splendid badge. Such badges were probably privately commissioned by their wearers, so this Dingpon must have come from a wealthy family.

- 328 **Military Badge:** Silver oblong badge, with sides curved inwards, coral mounted in centre. 'Ta 9' in an arched cartouche below the coral, so the badge was worn by an officer of the 9th 'Ta' Regiment, stationed at Markham in eastern Tibet (Bertsch 17, this piece). *Very fine and rare.*

Conditions of Sale

1. The highest bidder for each lot shall be the buyer thereof. In the event of any dispute, the auctioneer shall have absolute discretion to determine the dispute and may put up again and re-sell the disputed lot.
2. The auctioneer shall have the right, at his absolute discretion, to refuse admission to its premises or attendance at its auction by any person.
3. The auctioneer shall have absolute discretion to divide any lot, to combine any two or more lots, or to withdraw lots from the sale without giving any reason. The bidding shall be regulated at the absolute discretion of the auctioneer who shall have the right to refuse any bid or bids.
4. All lots are put up for sale subject to any reserve price that may be imposed by the seller. The seller shall not bid on his own property, nor employ any person to bid for him and the auctioneer alone shall have the right to bid on behalf of the seller up to the amount of any reserve. Should the reserve price be considered unreasonable by the auctioneer, the consignor is subject to at least five per cent (5%) commission on the reserve price if the goods remain unsold plus insurance charges.
5. Bidding commissions for anyone unable to attend the auction in person may be carried out by the auctioneer without charge, but "buy" commission will be accepted if the auctioneer is given absolute discretion.
6. The buyer of any lot shall immediately notify his name and address to the auctioneer and, if required, (a) provide bank or other credit references, and (b) pay the full purchase price, or a fractional deposit as may be determined at the discretion of the auctioneer.
7. Lots are sold as shown with all faults, imperfections and errors of description. Neither the auctioneer nor the seller shall give any warranty to any buyer in respect of any lot, or be liable for any fault or error of description, or lack of genuineness or authenticity of any lot. All statements as to the items sold, whether made in catalogues, during the course of the auction, or otherwise, are statements of opinion only, and are not and shall not be taken to be statements or representations of fact. The auctioneer reserves the right in forming his opinion, to consult and rely upon any expert or authority considered by him to be reliable. Notwithstanding the foregoing, if any lot should be proved by the buyer to be a forgery or re-print, or to have been wrongly described in any material respect, the buyer may reject the same, provided that he shall have given notice of his intention to do so and shall have returned the same to the auctioneer within fourteen (14) days from the day of the sale. Under no circumstances will the auctioneer be liable for any costs, expenses or damages incurred by the buyer in respect of any lot, including, but not limited to, loss of any kind of profit whatsoever. Bidders are advised to scrutinise the lots they bid for.
 - The auctioneer guarantees all items offered in the catalogue to be genuine. Claims to the contrary must be made in writing within fourteen (14) days after receipt to materials.
 - Questions on a coin being a proof or business strike relate to method of manufacture but not authenticity.
 - No lot may be returned after thirty (30) days after the sale.
8. The auctioneer acts solely as an agent and shall not be responsible for any default by either the buyer or the seller or for any action or claim which may arise in respect of any lot.
9. Buyers must satisfy themselves as to the accuracy of their purchases at the time of delivery. The auctioneer cannot be held responsible for any discrepancy which might be discovered after the lots have been removed from either the auction room or the auctioneer's premises.
10. The auctioneer will not hold himself responsible for the safe custody of any lots left for more than seven (7) days after the date of the sale, and reserves the right to charge storage and to re-sell by auction or privately, and without notice to the buyer, any lots not removed from its premises within seven (7) days from the date of the sale. Buyers shall not be entitled to remove lots from the auction room during the course of the auction.
 - No lot may be returned without the consent of the auctioneer.
 - If the auctioneer agrees to the return of any lot, it must be contained in its original, sealed and unopened container.
11. Each lot shall be at the buyer's risk from the fall of the hammer.
12. Any part of the purchase price left outstanding after the auction pursuant to Condition 6, shall be paid in full within seven (7) days of the date of the auction though the auctioneer may, at its absolute discretion, agree terms for credit with the buyer. Without prejudice to any other rights, the auctioneer reserves the right to charge interest on any overdue payment at the rate of 2.5% per month. All personal cheques must clear before delivery can be made, unless prior arrangements have been made with the auctioneer. Payment by credit card shall not be accepted for auction purposes.
 - Late payment for any reason is just cause for revocation of all return privileges.
 - The property in a lot shall not pass to the buyer unless he has paid the purchase price in full.
13. Buyers accepting commissions from other parties do so at their own risk and will remain responsible to the auctioneer for full settlement according to these Conditions.
14. By making a bid the buyer acknowledges his acceptance of these Conditions and shall be bound by them.
15. If any buyer fails to comply with any of these Conditions, the lot or lots in respect of which the failure is made may at the discretion of the auctioneer be put up again and resold. The damages recoverable from the defaulting buyer shall include, but not be limited to, the auctioneer's expenses and commissions in respect of the resale and the amount (if any) by which the price obtained on the resale is exceeded by that obtained in the first sale.
16. A variation of these Conditions shall only be binding on the auctioneer and the seller if it is made in writing and signed by a duly authorised representative of the auctioneer.
17. In these Conditions, the auctioneer means Baldwin-Ma-Gillio-Monetarium.
18. These Conditions shall take effect and be construed in accordance with the provision of Hong Kong Law.
19. **A "Buyer's Premium" of fifteen percent (15%) is charged on the hammer price, but there is no additional charge for executing bids.**

Advice to Postal Bidders

1.

Return your commission forms sooner than later, as bids are recorded in the order that they are received. Where two bids are received for the same amount, the bidder whose commissions arrived first is the buyer, subject, of course, to bids from the floor.
2.

If you are late with your bids, fax us your bids or telephone. Telephone bids can be accepted, although we would ask for the bid figures to be confirmed in writing as we cannot accept responsibility for mistakes.
3.

All commissions are handled in the strictest confidence and, if successful, the lot is sold to the “book”.
4.

The auctioneer will normally increase the bidding in 10% jumps. We would ask postal bidders to keep their bids to the nearest multiple of US\$5 or US\$10. Bids of US\$101 will be treated as US\$100, and similar “odd” amounts will be rounded down to the nearest actual bid at the auctioneer’s discretion.
5.

It is important to realise that we will try to obtain the lot bid on for the lowest possible price, and we fully appreciate the fact that the bids given are the maximum figure that the bidder is prepared to pay for any lot.
6.

We are happy to handle bids for customers who are interested in a number of lots, but wish to spend only a limited amount of money. Bidders are advised to mark their bids in the usual way and then clearly state the maximum amount they wish to spend.
7.

In a similar way, if bidders wish to bid on a choice of two items, they should clearly mark on the commission form “either/or”.
8.

Please remember to give full details as to how the lot or lots are to be dispatched. Successful bidders will be sent an invoice immediately following the auction, and the general rule is that this must be settled in full before the item or items are dispatched. Insurance and postage are to be borne by successful bidders.
9.

If there is any query before an auction about any item in the sale, or regarding a method of bidding, remember we have several overseas offices which can assist, and we are only a telephone call or fax message away.
10.

A “Buyer’s Premium” of 15% is charged on the hammer price, but there is no additional charge for executing bids.

Commission Buying: All commissions handled by Baldwin-Ma-Gillio-Monetarium are treated in the strictest confidence and are “knocked down” to the “book”.

Estimates: The figures in the list printed below each lot are the auctioneer’s estimation of the expected price and are published as a guide for buyers.

Prices Realised: A list of prices realised will be sent to bidders and consignors only. Others wishing to receive copies are asked to send in US\$2 (or the currency equivalent) in cash. BALDWIN'S AUCTIONS LTD

BALDWIN'S AUCTIONS LTD was founded in 1993 by Edward Baldwin. The idea of establishing an auction house was a logical development from the traditional coin dealing business of A H Baldwin & Sons Ltd founded by Edward's great grandfather in 1872. Baldwin's have for generations been involved with auctions as advisors and cataloguers for many auctioneers in London and abroad. The auction company is closely integrated with the old family retail firm, giving it access to five full time numismatists, numerous consultants and a superb library. **BALDWIN'S AUCTIONS LTD** has state-of-the-art pre-press and digital photography facilities, taking care of all catalogue production requirements in house, including the present catalogue

BALDWIN'S had a part in the establishment of the first Singapore Coin Auction in 1986, and were frequent consignors over the years. We therefore were well placed to take over from Spink's when they withdrew from the original partnership in 1993. In 1994 Andre de Clermont joined the firm, ensuring continuity from Auction 1 to the current sale.

In addition to our regular London auctions, which number 39 to date, and our participation in the Hong Kong and Singapore Coin Auctions, we also hold joint venture auctions in New York and Dubai. Our expertise ranges from Greek and Roman coins, through mediaeval and later European coins, to Indian, Asian and Islamic, as well as banknotes and commemorative medals.

Many of the Gupta, Mughal, Sultanate and British Indian coins, as well as British Imperial coins of Hong Kong and the Straits Settlements come from our consignors.

RONALD J GILLIO INC

RONALD J. GILLIO, the president of the company bearing his name, has been an important factor in the rare coin profession for over 40 years, beginning his business activity in 1961. At an early time, in 1967, he began operating coin shows in California, followed by his first rare coin auction in 1968.

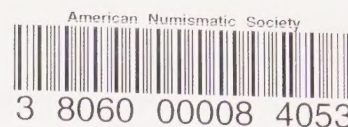

In the next decade his business expanded, and he became well known internationally. At the same time, in 1978, **GILLIO** was appointed as the official appraiser to the State of California by the State Controller. He was also named as an officer of the Professional Numismatists Guild.

In the 1980s and 1990s he gave seminars on rare coins for the American Numismatic Association, served as a consultant to PCGS on matters concerning grading, and in 1991 was elected president of the Professional Numismatists Guild, having served for 18 years on the Board of Directors, and has been a member of the International Association of Professional Numismatists for more than 20 years. In 1995 he was given the Founders Award, the highest honor of the PNG.

In the meantime he worked with the establishment and expansion of auction and other ventures in the Orient and overseas. To date he has conducted over 28 sales in Hong Kong, Japan, and Singapore, in addition to activities in the United States including with the auction firm of Butterfields, an eBay company where Ron is the numismatic specialist in charge, in association with Robert R Johnson.

RONALD J. GILLIO's involvement in rare coins can be described as *dynamic*, ranging from the presentation of the Long Beach Expo of international renown, the conducting of sales, to engaging in numismatic research, authentication, and other matters.

MA TAK WO NUMI

MA TAK WO has been a major player in the Asian numismatic scene for more than two decades, first as an avid collector of Chinese (including Hong Kong and Macau) coins and paper money and then as one of the principals of the Taisei group of companies which organized the highly successful Hong Kong and Singapore coin shows and auctions. In 1999, he set up the company bearing his name to take over the Hong Kong and Singapore Coin Auctions with current partners as well as dealing in rare coins and banknotes of the world and publishing numismatic books. As a principal cataloguer and auctioneer of the two auctions, an enormous number of Asian numismatic rarities have changed hands under his hammer.

During his busy career, **MA** has managed to find time to publish numerous articles in numismatic journals and author or edit the following numismatic titles which have become standard references in their respective fields:

Currency of Macau 澳門貨幣 (1987)

Struck Copper Coins of Sinkiang 新疆銅元譜 (1988)

Illustrated Catalogue of Sinkiang Gold & Silver Coins 新疆金銀幣圖說 (1988)

Illustrated Catalogue of Chinese Gold & Silver Coins, 1st to 4th Edition 中國金銀幣目錄, 第一至第四版 (1993-2001)

Illustrated Catalogue of Hong Kong Currency, 1st to 5th Edition 香港貨幣圖錄, 第一至第五版 (1995-2000)

He has been elected President of the Hong Kong Numismatic Society from 1986 to date and was appointed Advisor to the Numismatic Society (Asia) in 1998. In sum, **MA TAK WO** is a world-renowned authority on Chinese numismatics and a respected numismatist dedicated to providing professional services to the collector.

MONETARIUM (SINGAPORE) PTE LTD

MONETARIUM (SINGAPORE) PTE LTD was established in 1995 in partnership with Monetarium (Australia) Pty Ltd. Anthony Tan, the principal in Singapore, along with Monetarium (Australia) Pty Ltd directors Jeff Dick, Tony Richardson and Andrew Crellin have a wealth of experience in the coin and banknote profession. Collectively they have more than one hundred years of experience in numismatic fields. Leon Lee joined the company shortly after its inception and is now a director.

MONETARIUM (SINGAPORE) PTE LTD specialises in coins and banknotes of Asia and operate retail premises in Singapore. Through this auction partnership they have been involved in auctions in both Singapore and Hong Kong over the past few years.

MONETARIUM enjoys an excellent reputation throughout the numismatic world and their contacts in Asia, Australia, Europe and the USA have been instrumental in establishing the company in Singapore.

They have been associated with some of the rarest Singapore and Straits Settlements numismatic items including the purchase of the only known 1919 Straits Settlements One Thousand Dollar banknotes, being a consecutive pair, for almost A\$230,000. Although the highest price ever paid for banknotes from this area, the historical importance of re-locating these extremely rare items to their source was very satisfying.
